EDUCATION

Epicodus | 2021

800 hours of full-stack coding experience | 80-
hours of job preparations | 116 repositories that
cover all languages and frameworks above.

ABOUT ME

*Operationally-minded and dynamic full-stack developer. Ready to
apply skills and problem-solving experience with programming.*

EXPERIENCE

Full Stack Developer

The Gartrell Group | 2022 – Current

Implement Enterprise Information System frameworks and software solutions through all
project phases included architectural design, development, and implementation.

- Write ETL scripts for geo-spatial data from customer's database to development.
- Create heatmap to display up-to-date information of infrastructure status over
time.
- Develop Python scripts for image storage that runs on a schedule.

Web Developer

SimBco | 2021 – 2022

Turned design mock-ups into usable code and made changes based on client needs.

- Debugged 4-year-old C# project.
- Translated Figma design into React application for charter school.
- Coordinated with CEO and web designer on workflow and ticket completion.

Software Developer

VALIDATE | 2021 – 2021

Developed a React-based application in its alpha stage into a beta version with dev-team.

- Refactored original code base and dynamic form fields.
- Improved performance for UI/UX.
- Tested feature branches and submitted pull requests.

Director of Operations

Rapid Response Bio Clean | 2017 – 2021

Oversite on all operational aspects of the company strategy, strategic goals, and manage
flow of information to CEO and all affiliates.

- Developed & designed company-wide workflow management system from
ground up.
- Coordinated with City of Portland for updated policies and procedures in relation
to city-wide cleanup program.
- Acquired approximately \$30m in contract agreements.
- Assisted in growing business by approximately 175% each year of employment.
